

RFQ

Office Furnishings Q&A 9/11/19

1. As we are going through this bid and after reviewing last week, we have couple of questions about the Greenville Ave site. Please see below.

In the RFQ you are requesting for (40) private offices to be priced. According to the plan there are only (38) private offices with an additional (2) that have already purchased for phase 3. Are you wanting us to price those (2) or stick with the (38) that are needed? **Price it as in accordance with the quantities in the RFQ.**

For the stations, the specs call for all (18) stations to be 6x8. There is a portion of the space (see snip below of the area) where stations at the size of 6x8 do not fit. Would you like for us to downsize the stations to 6x6 or price as 6x8 and we can review this at the time of the bid being awarded? **Down size to 6 x6.**

2. I want to verify if there is any task or guest seating required in the new Greenville offices for the 40 offices and 18 cubicles **Yes, we will require seating for all new stations at Greenville site.** and new Redbird Center 17 Private offices, 7 new cubicles and 42 telemarkets? **And, no new seating for Redbird.**

3. Are there any floorplans for the Westmoreland Rd office? **Please send an email to procurement@wfsdallas.com to request this item.**

4. For the cubicle refurbish, are you only looking for the Herman Miller line? **No we are open to other lines such as Kimball, Hayworth, Herman Miller and Steel Case. We have all different brands within the workforce centers.**

***Please contact procurement@wfsdallas.com for floor plans.**
